# Press Release!

## **Dycon Power Solutions expands its Global Distribution Network for Dycon's EN54 fire systems and the magnetic fire door retainer power supply markets**

---

Dycon Power Solutions Ltd, the Welsh-based developer and manufacturer of advanced technology power supply products and solutions for the fire, security, building management and communications' markets, has recently expanded its fire distribution network to offer the full Dycon range of advanced fire power supplies to the global fire systems installation market.

Previously, these successful power products have been mainly supplied as OEM solutions for several major brands including VimpeX. Dycon is now making them available to the general fire installation market so that they can benefit from the advanced features and reliability that they offer.

In addition to its existing distributors, Enterprise Security Distribution and CQR in the UK and JM Systems of Valencia in Spain, Dycon has now welcomed KGM Fire & Security Distribution Ltd of Aylesford in Kent UK and The Safety Centre in Clitheroe, Lancashire UK as members of its fire distribution network.

To increase product availability throughout the UK, Europe and the Rest of the World, several new companies are undergoing vetting and will be announced shortly.

Dycon's fire range has 4 x EN54-4 1.5A, 3A and 5A solutions, all featuring advanced features that improve performance and system reliability and are fully certified by Intertek to EN54-4, CPD they also have an LSS Tick Mark certificate.

*Dycon D2435-17 5A EN54-4 power*

The Dycon range also includes 6 x 24VDC 1A, 2A and 3A power units designed to provide reliable operation for systems that use magnetic fire door retainers and other 24VDC system peripherals.

*Ends: 237 words - No restrictions. Further copies of the D2433-17 EN54-4 photograph can be obtained from the contact below.*
