

Dycon is proud of its continuing support of this worthwhile event and the work that the Cavernoma Alliance UK does in working to eliminate this debilitating disease.

There are so many good reasons to visit the Access Security Solutions BBQ Charity Trade Day on Thursday 11th July. As in previous years, it's a great opportunity to meet and build connections with like-minded security professionals and key partners, to learn more about the extensive product ranges available from the Dycon including a new range of power extensions including a unique 24VDC converter that provides an additional 12VDC 3A output and power booster modules. In addition to new technology, you can enjoy the ample supply of free food and drink while taking part in the fun features and competitions, which this year includes a fantastic mobile escape room. After many months of hard work behind the scenes, the BBQ Trade Day will see the unveiling of the brand-new reception area, state of the art product training room and a stunning new website packed with product information. These are in addition to the back-office expansion that provides more spacious office and warehouse areas together with a dedicated product programming room. This facility will be used to pre-programme products supplied with the peerless Access Security Solutions Value Added Service (VAS). VAS offers customers the facility of having products set up and programmed to their individual requirements before dispatch which can radically reduce the installer's time spent on-site, providing significant cost savings.

Jim Foster, Managing Director of Access Security Solutions said: *"We are looking forward once again to raising funds for Cavernoma Alliance UK, a charity that supported me through a diagnosis with the potentially debilitating condition. Touch wood, my cavernoma continues to behave itself! Our BBQ Charity Trade Day is a great day for networking and catching up with our customers and key partners, all whilst having some fun with some wine tasting and an escape room this year! A raffle with many great prizes, generously donated by our key partners, will be held. Tickets will be available on the day or in advance by contacting Access Security Solutions by Email sales@access-securitysolutions.co.uk or by telephoning 01327 358888.*
